VISIONLINK® SUBSCRIPTIONS

Data takes the guesswork out of managing your assets and controlling costs. Get the VisionLink subscription that best fits your business and your bottom line.

CONNECT

Provides you with core telematics data that answers important questions about your assets — helping you manage your operating costs.

HOW CONNECT HELPS MY BUSINESS

- **INCREASE VISIBILITY** of your operation with daily information about asset location.
- **MONITOR FUEL COST** by tracking fuel utilization and working vs. idle time.
- **REDUCE UNPLANNED DOWNTIME** with maintenance reminders and service alerts.
- **TRACK CARBON FOOTPRINT** for easier compliance reporting with emissions calculation.

DAILY REPORTING

CONNECTPRO

API-OUT AVAILABLE

ADDS more robust monitoring data to CONNECT level subscriptions for Cat and other brands of equipment.

WHAT CONNECTPRO ADDS

- **PROACTIVELY MANAGE ASSET LOCATION** with use of geo-fences and recording of asset entries and exits.
- **INCREASE EFFICIENCY** by monitoring working vs. idle hours and expanded notifications.
- **LOWER OPERATING COSTS** with cost analysis and excessive idling reports.
- **CONTROL SITE SAFETY** with remote disable.

INSTANT UPDATE! Request asset data for hours and location immediately.

DAILY REPORTING

PERFORMANCE

API-OUT AVAILABLE

ADDS even more comprehensive data with increased frequency over CONNECTPRO level for smarter, faster decision making.

WHAT PERFORMANCE ADDS

- **OPTIMIZE SITE EFFICIENCY** through more frequent data reporting, review and response.
- **IMPROVE PRODUCTION** with total payload and cycle count
- **MORE EFFECTIVE UTILIZATION** with advanced breakdowns, analysis and mapping.
- **COST-EFFICIENT PLANNED MAINTENANCE** with real-time critical and non-critical alerts.

HIGH-FREQUENCY REPORTING

PERFORMANCEPRO

API-OUT AVAILABLE

ADDS more robust monitoring data to PERFORMANCE level subscriptions for Cat and other brands of equipment.

WHAT PERFORMANCEPRO ADDS

- **INCREASE SITE PRODUCTIVITY** through more frequent data analytics and reporting that integrate multiple machine productivity datasets from the entire site.
- **IMPROVE RESULTS TRACKING** precise payload, location and time details while developing cycle segmentation data for analysis.
- **INSIGHTS FOR IMPROVEMENT** from integration of Productivity KPIs and benchmarks into data analysis and progress reporting.
